

This is a STANDARD checklist. Many things on it aren't applicable, but it does give me information about you. ENJOY completing it.

NO means you will NOT do that item under any circumstances (a hard limit).

If you honestly don't know - leave it blank.

1 means you don't want to do or don't like to do this activity, but wouldn't object if it was asked of you.

2 means you are willing to do this activity, but it has no special appeal for you.

3 means you usually like doing this activity, at least on an irregular/ occasional basis.

4 means you like doing this activity, and would like to experience it on a regular basis.

5 means the activity is a wild turn-on for you, and you would like it as often as possible.

Note any additional information or nuances which might be important for me to know. For example, under "uniforms" you might have a different fetish for military versus police. Also note if there are different scores for different parts of the activity eg. small butt plugs may be a 5, but speculum may be a 1.
